

PATIENT RIGHTS AND RESPONSIBILITIES
--

PATIENT RIGHTS

You have the right to:

- Impartial access to treatment regardless of race, religion, gender, color, national origin, ethnicity, age, or disability.
- Respectful and considerate care.
- Know the names, titles, and qualifications of all who provide your care
- Full consideration of privacy and confidentiality with regard to information and records of your care.
- Know and understand the diagnostic procedure of PET, including the benefits and any risks associated with the scanning process
- Understand the sedation process and/or drug if prescribed by your physician for the procedure.
- Establish a self-pay program if authorization for the procedure is denied or if financial limitations of an insurance policy have been reached (except as prohibited by law).
- Examine and receive an explanation of your bills for service, regardless of the source of payment.
- Voice concerns and make suggestions regarding the center and/or the care provided including being informed of grievance procedures.

PATIENT RESPONSIBILITIES

You have the responsibility to:

- Respect the rights, property and environment of all physicians, health care professionals employees and other patients.
- Know the benefits and the exclusions of your insurance coverage.
- Ask questions regarding the explanation given for any portion of the procedure that you do not understand
- Report any adverse symptoms to the technologist during the scanning process.
- Adhere to the patient instructions provided prior to the procedure
- Be responsible for the meeting the financial obligations of the procedure as promptly as possible. This may include the need to follow up as the member with your insurance company.
- Complete a charity care application if applying for financial coverage under the policy.
